

2022 Education Hubs

Cluster Groups

Barnardo's Education Community is creating a new range of cluster groups for specific roles and settings in Education to encourage connections with other like-minded professionals and provide support.

Our online platform focuses on developing trauma-informed resources relating to loss, grief, and bereavement to support education staff in their work with children, young people, and families.

These Hubs provide opportunities to engage in discussions and nurture the exchange of knowledge, skills, and experience across schools and settings in the UK and are open to any professional **who falls under one or more of the categories below.**
